

**CLIENT**

Enza Construction (Pty) Ltd

**PROJECT**

African Data Centre Refurbishment

**INDUSTRY**

Telecommunications

**REGION**

Midrand, Gauteng, South Africa

**SOLUTION**

1 X Alimak TPM 1600 with a platform width of 1.5m, length of 3.2m, 3 landing gates and a capacity of 1600kg was installed at the African Data Centre in Midrand. Our Alimak TPM Platform was installed to move software equipment that was too large to move otherwise, to the desired location within the data centre. The equipment was pre-assembled thus the TPM provided the transportation of the heavy and bulky equipment.

**DATE**

Installed in 2020

**PRODUCT**

1 x Alimak TPM 1600
