## WASHIRIKA 3 Oaks

October 2022

### CLIENT

Washirika 3 Oaks

### PROJECT

Standard Bank Building Refurbishment

### INDUSTRY

Construction

### REGION

Johannesburg, CBD, Gauteng, South Africa

### SOLUTION

The Standard Bank building in the Johannesburg CBD is a heritage building. Our client was given the task to refurbish the gym inside the building without any damage to the building. The Alimak Type Scando 650 FC Single Cage Hoist, with a capacity of 2 400 kg or 26 persons, for a top landing height of 31 metres freestanding, was the perfect solution. Libra-Plant designed the base as well as the double mast system to achieve this.

### DATE

Installed in October 2022

### PRODUCT

1 x Alimak Scando 650 FC 24/32
